

Charity Program to earn your Bib

Marathon du Mont-Blanc 2018 - 6th edition Charity bib

Run for rare diseases with the French association Lysosome - Vaincre les Maladies Lysosomales. For the 6th consecutive year, some fifty runners will take the start of the Marathon du Mont-Blanc events to support our action. €110,000 have already been raised thanks to supporters of the solidarity bibs.

Lysosomal diseases are 53 rare genetic diseases mainly affecting children. They lead to important physical and neurological disabilities. Since 1990, the organisation VML helps families and finances the International Scientific Research. *More information is available on our french website: www.vml-asso.org*
